

Sponsorship Packages & Benefits

About CCABG Network

The Caribbean and Central American Botanic Garden Network was formed to foster collaborative ‘bridges’ among botanic gardens, plant conservation practitioners, and research centers interested in the region.

The Botanical Bridges Congress is a biannual conference that convenes members of the network to promote the exchange of experiences and innovations in conservation, education, and research to solve common challenges faced by Caribbean and Central American botanic gardens and associated plant conservation institutions. The next Botanical Bridges Congress will take place in Santo Domingo, Dominican Republic from April 20-24, 2026 and will be hosted by Jardín Botánico Nacional Dr. Rafael M. Moscoso.

Congress Themes

- Plant Conservation
- Botanic Garden Development

- Climate Change
- Living Collection Management

- Environmental Education, Capacity Building, and Training
